## Quality Policy

We, at **Vanguard Systems & Services**, are committed to providing excellence in Airfield/Airport services & Water Treatment, together with the highest Level & effective application of quality standards for our Clients.

We are committed to provide a System of work by documenting, implementing, maintaining, and communicating all work procedures, information, and code of practices to all employees, external and internal Stakeholders.

### Vanguard commitment:

To use the Recommendation & Discipline of ISO 9001 to complete and deliver projects in a timely manner with respect to standards and specifications, while being commercially competitive.

- To continually improve the effectiveness of the Quality Management System.
- To adopt and cope with the changing business market environment.
- To Achieve Customer satisfaction thereby improving Customer relationships.
- To comply with all Statutory and Regulatory requirements.
- To give all personnel an adequate information and training to enable tasks to be undertaken with a consistent Standard of Quality.
- To Uphold the philosophy of "Doing it Right First Time Every time".

All VSSI staff are committed to maintain the highest standard of Quality & to comply with this Organizations **Quality Policy**.
